

comida HCys B FORMULA

For the Dietary Management of Homocystinuria in
**CHILDREN OVER 1 YEAR OF AGE, ADOLESCENTS
AND ADULTS**

- Free from methionine
- Supplemented with vitamins, minerals and trace elements
- Provides energy from fat and carbohydrates
- Easy to prepare

DESCRIPTION

comida-HCys B formula is a methionine free protein supplement for the dietary management of homocystinuria in children over 1 year of age, adolescents and adults. comida-HCys B formula contains fat and carbohydrates, and is supplemented with cysteine, vitamins, minerals and trace elements.

INDICATIONS

For the dietary treatment in children over 1 year of age, adolescents and adults with homocystinuria – vitamin B6 non-responsive (due to Cystathione β -Synthase deficiency).

RECOMMENDED USE

The daily amount of comida-HCys B formula needed depends on age, body weight and individual metabolic condition. The dose of comida-HCys B formula is to be monitored and adjusted by the physician regularly. The daily amount required should be divided into 3 to 5 single portions and should be taken mixed also with food or beverages allowed in calculated amounts.

Preparation table:

Drinking volume	Water	comida-HCys B formula	Protein content
ml	ml	g	= No. of scoops* = g Protein equivalent
50	45	7,5	1 2,3
100	90	15	2 4,7
200	180	30	4 9,3

* standard dilution: 15,0 g in 90 ml water

IMPORTANT NOTICE:

- Not suitable as sole source of nutrition
- Must be used under medical supervision
- Not to be used by individuals without homocystinuria
- For children over 1 year of age, adolescents and adults with homocystinuria
- Not suitable for parenteral use

comida-HCys B formula is free from any preserving agent, colourings or sweeteners
